

Here's a short, professional cover letter for the Data Science AI ML Trainer position:

Dear Hiring Manager,

I'm thrilled to apply for the Data Science AI ML Trainer role at CertED Technologies, where I can leverage my passion for AI/ML to empower corporate professionals. With hands-on experience in developing smart hiring solutions and automating business processes, I'm confident that my skills align perfectly with your requirements. My expertise in Python, data analysis, and designing Transformer-based models will enable me to create actionable and functional solutions that drive efficiency and accuracy.

In my current role at Relig Global, I've successfully designed an end-to-end AI-powered recruitment platform, cutting down manual hiring work by 40%+. I've also developed personalized LLM-based resume screening and JD parsing tools, enhancing candidate-job matching accuracy and screening precision by over 35%. I'm excited to bring my expertise to CertED Technologies and contribute to the development of innovative AI/ML solutions.

Thank you for considering my application. I'm eager to discuss how my skills and experience can support the success of your team. Please feel free to contact me at gunapativaishnavi348@gmail.com or 7674840589. I look forward to the opportunity to discuss this role further.

Best regards,

Gunapati Vaishnavi
